

Consent form for the experimental study

„HandworkStation“

I receive information with respect to the experimental study „HandworkStation“, and I agree to take part in the EEG registration. Furthermore, I agree that the acquired data are stored and utilized for scientific investigation in anonymized form. I was assured that any data which allow reference to personal data (name, date of birth, ...) are stored separately and are solely used for BCI research. These data will not be given to third persons.

I was informed that participation is voluntary and can be cancelled during the experiment without giving any reason.
